THE WALT DISNEY COMPANY
Diversity & Inclusion Commitment

We believe ideas and decisions from everyone on our teams help us grow, innovate, and tell the best stories. The result makes every one of our series, films, and experiences relevant in a rapidly changing world.

At Disney, we tell heartwarming and inspiring stories that bring people together. We create enduring characters and magical experiences that help people make lifelong memories.

Our people drive the innovation and connection that are the hallmarks of our brands. We build teams that reflect the life experiences of our audiences. And, at every Disney workplace, we value and encourage curiosity, innovation, and ideas from everyone.

Inclusion is a critical part of telling the best stories, being relevant, and expanding audiences.

We are proud to tell stories that matter and are a reflection of us. That doesn’t mean our work is done. We continue to listen, learn, and imagine the possibilities.

Disney Channel's Andi Mack features a multicultural, multigenerational family.

Co-director Adrian Molina and an all-Latino cast helped make Coco an authentic, relevant, and timeless story.

Kids experience their favorite stories in exciting ways at Disney's Parks and Resorts.
