

PERMITTED SOURCING COUNTRIES

BACKGROUND

In 2013, The Walt Disney Company consolidated production of Disney-branded products in a more limited number of Permitted Sourcing Countries. We made this change to more effectively focus our resources, better manage the supply chain for Disney-branded products and meet our standards on a more reliable and consistent basis in locations more likely to make continuous improvements in working conditions. [View our Permitted Sourcing Countries Policy - March 2013 document to learn more.](#)

PERMITTED SOURCING COUNTRIES LIST

Disney uses the [Worldwide Governance Indicators](#) (WGI) as a primary resource for identifying and comparing areas of risk and determining where to focus our monitoring resources and requirements. This data helps us generate our Permitted Sourcing Countries list, which determines those countries licensees and vendors may source from in their production of Disney-branded products. We believe this index provides a consistent and transparent basis for these determinations and helps us to more effectively focus our resources, better manage the supply chain for Disney-branded products and meet our standards in a more reliable and consistent basis in locations more likely to make continuous improvements in working conditions. In addition, we refer to the U.S. Department of Labor's [List of Goods Produced by Child Labor or Forced Labor](#) and the U.S. Department of State's [Trafficking in Persons Report](#) to further refine our risk assessment and help prioritize oversight.

As part of our ongoing support of the International Labor Organization's (ILO) and International Finance Corporation's (IFC) [Better Work](#) program, facilities that participate in a Better Work country program (in countries that are not otherwise on the Permitted Sourcing Countries list) and also meet Disney's International Labor Standards Program requirements may be used to manufacture Disney-branded products. Better Work is a program that provides assessment and capacity-building services for apparel factories in select countries. The ILO and IFC make autonomous decisions on where Better Work operates using an independent set of criteria that include consultations with national stakeholders of government, employers and workers.

The current list of Permitted Sourcing Countries is set forth below. The Permitted Sourcing Countries list is updated on a periodic basis.

Effective January 1, 2019

As a Licensee or Vendor you may only use Facilities in, and source from, Permitted Sourcing Countries. The use of Facilities in the following countries¹ is permitted without an ILS Audit:

PERMITTED WITHOUT ILS AUDITS
