

STAKEHOLDER ENGAGEMENT

Disney values the input of our many external stakeholders and works closely with a variety of groups in our ongoing effort to foster safe, inclusive and respectful workplaces. External stakeholders include non-governmental organizations (NGOs), multi-stakeholder initiatives (MSIs), labor unions, peer companies, multi-lateral institutions, government agencies, socially responsible investors, industry associations and others. Progress in labor conditions around the world is a collaborative effort, and we count on the expertise of our stakeholders to help us achieve our goals.
